To Whom It May Concern,

I have been a real estate sales associate for Ross Realty for over 40 years in the Henderson area. Our community has experienced a steady increase in growth, especially over the past 20 years. Unfortunately we are experiencing some water quality issues that are not favorable to enticing outsiders to move to Henderson. Residents do not like low water pressure, rusty water, and questionable drinking water quality and as a realtor I am obligated by the Realtors Code Of Ethics to disclose these issues to prospective buyers. I can assure you that water quality is important to buyers, especially those with children.

I strongly support funding to help improve our water quality to help not only our current residents, but all future families that want to make Henderson their hometown.

Sincerely,

Denny Graham

Ross Realty
